## **Samworth Brothers statement on cage-free eggs by 2025**

**March 2019**

Samworth Brothers is a responsible business that believes in making a positive contribution to society and is committed to leaving the world a better place than when we found it. This commitment extends to ensuring that the welfare of the animals within our supply chain, that are utilised and reared for the ingredients used in our products, is respected and protected.

All the eggs in our egg ingredient supply chain are produced to recognised farm assurance standard. Working with our supplier partners, we have also committed to move to 100% cage-free eggs by the end of 2025 for all our Samworth Brothers brands, this includes all shell eggs and egg products (e.g. liquid egg) directly sourced as an ingredient by Samworth Brothers.

We will ensure this is managed and delivered in collaboration with our egg producers and egg products suppliers.
